

GREATER PHARMA

Greater Pharma : The First Thailand Privately Owned Biological & Biopharmaceutical Manufacturer Promoted by Thailand Board of Investment (BOI)

The Complete Solution of Biotechnology partnering in Thailand

Greater Pharma Group of Companies deliver quality products from our Pharmaceutical Good Manufacturing Practice (GMP), Food Good Manufacturing Practice (GMP) and ISO 9001:2008, ISO 17025 certified facilities, backed by 45 years of experience covering a vast range of products which are Pharmaceuticals (Ethical generic drugs and OTC drugs), Functional food supplements, Cosmetics, and Biotechnology products. Greater Pharma focus on research and development (R&D) of both finished goods and raw material synthesis.

Greater Pharma Business Innovation.

The present and future outcomes of Research & Technology development have successfully reached our goals in 5 major areas:-

1. Pharmaceutical

1.1 **AllerVAC[®]** (House Dust Mite Vaccine)

1.2 **AllerVACtest[®]** (House Dust Mite Diagnostic Allergens)

We were the first pharmaceutical company in ASEAN entering into biopharmaceutical production for House Dust Mite Therapeutic Vaccine and Allergenic diagnostic test kits. These products are the co-operational project between Siriraj Hospital and Greater Pharma. The House Dust Mite Allergenic diagnostic test kit includes the standardized mite allergen extract of Dermatophagoides pteronyssinus (Dp) and Dermatophagoides farinae (Df), Histamine as Positive Control, and Buffered Saline as Negative Control.

1.3 **Mycalcitonin[®]** (Synthesised Salmon Calcitonin Nasal Spray 200 I.U)

We were the first pharmaceutical company in South East Asia producing Calcitonin-Salmon Nasal Spray which is indicated for the treatment of postmenopausal osteoporosis in females greater than 5 years postmenopause with low bone mass relative to healthy premenopausal females.

1.4 **Glucosamine HCl, Glucosamine Sulfate**

We are the 1st pharmaceutical company in Thailand who are entering to Raw Materials Synthesis.

2. Cosmetics

Greater Pharma Co.,Ltd is the first pharmaceutical company in the world to commercialize "Short chain Chitosan Oligosaccharide", which is the right molecular weight that can be absorbed into the dermis layer to stimulate the increasing of Fibroblast cell. The fibroblast cells activate the synthesis of Collagen. The results on skin are strongly developed skin, smooth and more flexible skin. These help to

rejuvenate the aging skin to give younger look. The "Short chain Chitosan Oligosaccharide" raw material are currently used in our Myskin Face Lift Range such as Myskin Face Lift cream, serum, day cream, sunscreen, eyecream etc.

3. Health Supplements.

3.1 **Myseptic Mybacin[®] Zinc** : is dietary supplement that combines Zinc. Myseptic Mybacin[®] Zinc Lozenges alleviate cold symptoms and reduce the duration or severity.

3.2 **Sucralose** : We are the 1st pharmaceutical company in Thailand who are entering to Sucralose Raw Materials Synthesis.

3.3 **Slend-D[®]/Slend-D Zero[®]/Fiber-Plus[®]** : contain Sucralose to help control weight by mixing it into all types of food including beverages and products to reduce weight.

3.4 **Slend-D Syrup with prebiotic[®]** : contains Levan, which has prebiotic and hypocholesterolemic effects, with no calorie.

4. Greater Herbal products.

It has been long proven that Thai herbs have very good therapeutic properties with less side effects. This make Greater Pharma interested in developing a high potency Thai herbs preparations. The products with herb are as following:-

4.1 **Herbacid[®]** : Herb tablet for treatment of Gastrointestinal Ulcers, GERD (Gastroesophageal reflux disease)

4.2 **Mygesal Herbal[®]** : Topical Anti-Inflammatory of Joints and muscles.

4.3 **Myherbal Mybacin Throat Spray-Thai Herbal formula[®]** : Herb Spray for Sore-Throat.

4.4 **Herbs for reducing weight.**

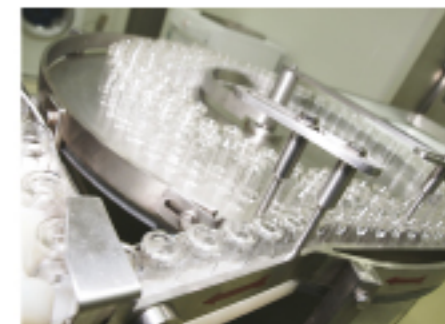

4.5 **Herbs for reducing stress.**

4.6 **Herbs for controlling blood pressure.**

5. Greater Health Service.

Stem Cell for Life Company Limited (SCL) - The pioneer in cell therapy business: Greater Pharma has established the first wholly Thai-owned stem cell banking service provider. SCL provides international standardized banking services with research and development in quality and technology, and co-performs clinical researches in adult stem cell, both Hematopoietic and Mesenchymal types of stem cell, with both government and private medical centers. These affords are to obtain the best pioneer line of cell therapy and technology for Thai people and mankind.
