

บริษัท ไซแอนติฟิค โปรโมชั่น จำกัด
SCIENTIFIC PROMOTION CO., LTD.

Biotechnology Division

- From Benchtop shakers, Incubator shakers to Large scale industry shakers with highest quality

- Laboratory, Pilot and Production scale of Freeze dryer
- Rotational Vacuum Concentrator

- Low volume UV/VIS spectroscopy - use just 1 µl of samples
- Ideal for nucleic acids, protein, microarrays and bacterial cultures

- Fermentation Technologies and Upstream & Downstream Solutions for Process Development and Production

- Laboratory centrifuges, angle rotors, swing-out rotors and accessories for the efficient separation of several components of a liquid base

- Multi-detection microplate readers for life sciences applications and high-throughput screening

Analytical & Chemical Division

- High Performance Liquid Chromatography (HPLC, UHPLC)

A SCENT OF FUTURE

- Gas Chromatography (GC)

- Nitrogen Evaporator

- Syringe filter, membrane filter and vial for HPLC and GC

Analytical & Chromatography

- HPLC, GC, LPCL, Flash
- Analytical Standards
- Titration & Buffers
- Sample Preparation
- Solvents & Additives
- Microbiology

Reliable Laboratory Reagents for Everyday Research Use

- Lab Essential Reagents
- Chemical Synthesis Reagents
- Analytical Reagents
